

Bikes in Zion

Effective August 30, 2019, Class 1 pedal-assist E-bikes are allowed in the same locations as regular bicycles, and must follow all of the same rules. For Zion National Park, this means that E-bikes are allowed on paved road surfaces open to the public and the front country Pa'rus Trail.

Class 1 E-bike: Electric bicycles equipped with a motor that provides assistance only when the rider is pedaling, and that ceases to provide assistance when the bicycle reaches the speed of 20 miles per hour.

Where Bikes are allowed in Zion

ZION CANYON SCENIC DRIVE

Riding your bicycle on the Zion Canyon Scenic Drive is an enjoyable option when the Zion Canyon Shuttle is in operation. Keep in mind:

- Bicycle and E-bike riders must yield to the shuttle bus. When a shuttle bus approaches, find a safe place to pull over and allow the bus to pass. **Do not pass a moving bus.**
- Always ride on the right side of the road and in single file.
- Be especially careful when biking through the Canyon Junction and Weeping Rock shuttle stops. Both areas have limited sight and narrow lanes.

PA'RUS TRAIL

The Pa'rus Trail is located between the Zion Canyon Visitor Center and the Canyon Junction. It is a 1.75 mile paved trail that follows the Virgin River and is shared with pedestrians and leashed pets. Keep in mind:

- Bicyclists must obey all traffic signs, including stop signs. The side trail to the Human History Museum is not open to bicycles.
- There are lots of turns, bridges, blind corners and wildlife on the trail. Cyclists must warn pedestrians before passing, either verbally ("passing on your left") or with a bell or horn. If pedestrians do not move out of the way, then stop until they do. Pedestrians have the right of way.
- Be careful when passing dogs.

OTHER PARK ROADS

The Zion-Mount Carmel Highway has steep grades and narrow sections of road. There is a one mile tunnel located on this route that bicycles are **not** allowed to ride through. The Kolob Terrace Road and the Kolob Canyons Scenic Drive both have steep grades, sharp curves, and no shoulder.
